Dimensions

- This wash trough can be supplied at different lengths
- **Lengths available:** 500mm | 800mm | 1000mm | 1200mm | 1500mm | 1800mm | 2000mm | 2400mm
- **Height:** 149mm
- **Front to back:** 400mm
- **Rear upstand:** 30mm
- **Tap Ledge:** 74mm

Where can this be installed?

- This wash trough is ideal for locations where more than one user is required to use a sink at the same time
- Can be installed inside or outside with adequate thought for water supplies in freezing temperatures
- Ideal for schools, colleges, factories etc
- If the wash trough is installed in an environment where people may lean or sit on the trough, we recommend fitting a pair of front support legs (see below) for extra support along the front of the wash trough

Optional Extras

WE-STANDARD-FL - Stainless steel front support legs (950mm unit height)

WE-NURSERY-LEGS - Stainless steel front support legs (600mm unit height)

LARGE-PLASTIC-BOTTLETRAP - 1.5" plastic bottle trap

LARGE-CHROME-BOTTLETRAP - 1.5" chrome plated bottle trap

WE305-TPCVR - Stainless steel trap cover
