Dimension Drawing

Installation & Maintenance Instructions

Round Douche Kit

Kit Includes:

Wall Bracket With Built In Angle Valve, 1.25m Double Interlock
Hose, Spray head

Installation Instructions:

Wall bracket with built in angle valve can be mounted on a panel and secured with a back-nut or fitting depending on panel depth. It is recommended that the panel is not relied upon for rigidity. The inlet pipe to the built in angle valve should be firmly fixed for rigidity when in use.

Guarantee & Aftercare:

During installation extra care must be taken to avoid damaging the fittings. We provide one year guarantee against faulty materials (excluding serviceable parts), providing they have been installed, cared for and used in accordance with our instructions. Clean with soft damp cloth and non corrosive detergent only.

Note: Ensure Angle valve is turned to off position after use.
